Technical Skills

Used professionally: Java, Spring Boot, Gradle, Groovy, REST APIs, SQL, Git, Docker, CI/CD (Jenkins), Python, Terraform, AWS (Athena, S3, Glue), Datadog, SentinelOne.

Used outside work: Lisp (Scheme, Clojure), Julia, T_EX, C.

Experience

- 2021–present **Software Engineer**, *Klarna*, Milan.
Designed, built, and maintained backend services in Java/Spring, exposing REST APIs supporting high-traffic flows.
Owned features end-to-end, from design to release, with a focus on correctness, maintainability, and operational stability.
Built and maintained AWS-based data pipelines using Glue, Athena and Spring Batch, with infrastructure managed through Terraform.
Participated in on-call rotations, ensuring service continuity and rapid incident response.
- 2020 **Secondary school teacher of mathematics and physics**, *I.I.S.S. Vittorio Bachelet*, Oggiono.
- 2016–2018 **Sales clerk**, *Esselunga*, Giussano.

Education

- 2015–2021 **Master's degree in Mathematics**, *Università degli Studi di Milano-Bicocca*.
Thesis: *On the Problem of Recovering Discontinuous Functions from Scattered Data*.
Final grade: 110/110.
- 2012–2016 **Bachelor's degree in Mathematics**, *Università degli Studi di Milano-Bicocca*.
Thesis: *Topological Data Analysis*.
Final grade: 110/110 cum laude.
- 2007–2012 **Scientific high school diploma**, *I.I.S.S. Vittorio Bachelet*, Oggiono.
School-leaving examination mark: 82/100.

Achievements

- 2012 **Olympiads**
Selected for the National Phase of the Italian Physics Olympiad; ranked 3rd in the Provincial Phase of the Italian Mathematics Olympiad.
